# PROFESSIONAL BUSINESS SERVICES

We provide comprehensive, integrated solutions and professional technical services tailored to support your industry needs. Our primary focus is built upon three core pillars of service:

**Engineering Service, Integration Packaged Equipment, and General Trading.**

## Our Core Service Pillars:

### Engineering Services

We deliver end-to-end engineering services, spanning from the conceptual stage through to detailed design execution. Our services ensure that your projects adhere to the highest technical standards, maximizing efficiency, compliance to specification and safety.

- **Technical Documentation:** Generation of Mechanical, process, utility flow diagrams, and Piping & Instrumentation Diagrams (P&IDs).
- **Detailed Evaluation Packages:** Comprehensive plans covering civil, mechanical, electrical, instrumentation, and telecommunication, complete with listed material specifications (BoM/MTO).
- **Compliance & Review:** All our engineering outputs adhere to relevant industry standards and are rigorously reviewed via third-party assessments, including HAZOP, HAZID, and environmental reviews.

#### Engineering Specializations:

- **Process Engineering:** Optimization and design of fluid and material flow processes.
- **Mechanical Engineering:** Design of equipment, piping systems, and facility layouts.
- **Electrical Engineering:** Planning and design of power systems and distribution.
- **Instrumentation & Control:** Designing control systems, field instrumentation, and automation solutions.
- **Structural Engineering:** Design of civil structures and equipment supports.
